Overall orientation

8.1 The legislative authority for the programme derives from General Assembly resolutions: resolution 56/227, whereby the Assembly decided to establish the Office of the High Representative for the Least Developed Countries, Landlocked Developing Countries and Small Island Developing States; resolution 65/280, whereby the Assembly endorsed the Istanbul Declaration and the Programme of Action for the Least Developed Countries for the Decade 2011-2020; resolution 69/137, whereby the Assembly endorsed the Vienna Programme of Action for Landlocked Developing Countries for the Decade 2014-2024; resolution 59/311, whereby the Assembly endorsed the Mauritius Declaration and the Mauritius Strategy for the Further Implementation of the Programme of Action for the Sustainable Development of Small Island Developing States; and resolution 69/15, whereby the Assembly endorsed the SIDS Accelerated Modalities of Action (SAMOA) Pathway (SAMOA Pathway). The 2030 Agenda for Sustainable Development (resolution 70/1) supports the implementation of the above three programmes of action, all of which are integral to the new Agenda. Furthermore, the new Agenda contains a request that, in the context of the global follow-up and review processes of the Agenda, effective linkages be made with the follow-up and review arrangements of all relevant United Nations conferences and processes, including on least developed countries, small island developing States and landlocked developing countries.

8.2 The mandate of the programme covers five main elements:

(a) Mobilization and coordination of international support and resources for the effective implementation of: (i) the Istanbul Programme of Action for the Least Developed Countries for the Decade 2011-2020; (ii) the Vienna Programme of Action for Landlocked Developing Countries for the Decade 2014-2024; and (iii) the SAMOA Pathway;

(b) Coherent and coordinated monitoring and follow-up to the three programmes of action;

(c) Awareness-raising and advocacy with respect to the three groups of countries (least developed countries, landlocked developing countries and small island developing States) and their respective programmes of action;

(d) Reporting on the implementation of the programmes of action as effective tools for reaching the international development goals in the groups of countries;

(e) Building effective linkages between the follow-up and review arrangements of the 2030 Agenda for Sustainable Development and the three programmes of action.

8.3 The programme will also contribute to achieving the internationally agreed development goals, including those contained in the 2030 Agenda for Sustainable Development and in the outcomes of major United Nations conferences and international agreements, such as the Addis Ababa Action Agenda of the Third International Conference on Financing for Development, the Paris Agreement adopted at the twenty-first session of the Conference of the Parties to the United Nations Framework Convention on Climate Change and the Sendai Framework for Disaster Risk Reduction 2015-2030. It will mobilize international support in favour

of its three groups of constituencies in the areas of capacity-building and increased technical and financial resources in promoting sustained growth and sustainable development. Gender mainstreaming and women's empowerment are an important dimension in the implementation of the three programmes of action.

8.4 The overall programme of work of the Office of the High Representative is designed around three interdependent and complementary subprogrammes, namely, subprogramme 1, Least developed countries, subprogramme 2, Landlocked developing countries, and subprogramme 3, Small island developing States.

8.5 The Office of the High Representative will use a combination of the following approaches and strategies:

(a) Raising awareness and advocating that the concerns of the three groups of countries be placed high on the global development cooperation agenda, to maintain the focus on their special needs;

(b) Monitoring and follow-up to foster supportive policies in groups of countries in special situations and their development partners in accordance with their respective programmes of action and other internationally agreed development goals, including the 2030 Agenda for Sustainable Development, the Addis Ababa Action Agenda, the Paris Agreement and the Sendai Framework;

(c) Working with development partners, United Nations system organizations and other international and regional organizations, as well as parliaments and civil society, to ensure the mainstreaming of priorities identified in each of the three programmes of action at the national level, enhancing coherence between global policies and national strategies;

(d) Supporting capacity-building of the three groups of countries towards the effective implementation of the programmes of action at the national level;

(e) Building partnerships towards the implementation of the three programmes of action and promoting South-South cooperation in various areas for the benefit of the countries in the three groups;

(f) Reaching out to all stakeholders, including partnerships with parliaments, civil society, foundations, the media, academia and the private sector, to enhance support for the three groups of countries;

(g) Maximizing synergies among the three subprogrammes, given the commonalities of problems and challenges of the countries in the three groups, including their structural weaknesses, their vulnerability to external shocks, the smallness of their economies, their marginal position in the world economy, their limited access to technology and their geographical disadvantages.
